

## Case Study: Howdens Smart Kitchens

### Connected Kitchens

#### Howdens Joinery Ltd.

One of the world's most successful and innovative kitchen design, manufacturing and installation companies.

#### Challenge

Howdens needed to bring connected kitchens to market securely, reliably, quickly, and affordably.

#### Solution

Cloud of Things makes configuration, deployment and management simple and fast, native ULE support guarantees range and link fidelity while ensuring compatibility with hundreds of products out-of-the-box using their IoT Gateway and DeviceTone solutions.

#### Results

- Easy to monitor, manage and maintain their high-end kitchens.
- Greater safety and peace of mind.
- Reduced maintenance costs.

**HOWDENS**  
JOINERY CO.

“We are excited to work with two market leading companies to deliver best-in-class IoT solutions. Together we are shaping the future of IoT at home using our proven ULE and DECT technologies together with Howdens leadership in smart kitchens and Cloud of Things’ IoT management systems.”

– **Tali Chen**, *Corporate Vice President Corporate Development & Chief Evangelist DSP Group*
